

IN THE NAME OF ALLAH

Date: 13 Feb 2011  
No: 1192308

**Dear Ms. Moa Sundstrom**

Regarding to the visit of cooperation center of WHO ( World Health Center)'s experts located in Sweden managed by Mr. Henricson from Tehran Safe Community pilot plan at 15 ordibehesht , 1387 (May, 4, 2008), please perform necessary coordination's for joining Tehran Municipality, Region 8 with following properties to International Network of Safe Community.

**The Region's properties and geographical status:**

**Geographical status**

Region 8 with an area 13/39 Km<sup>2</sup> , located in the slight incline of the Alborze Mountains' slope, at the north of Setappeh Mountains at the east of Tehran, reaches to the heights of Alborz Mountains through its northern neighbor (region 4) and the Sorkh-e-Hesar forest and Setappeh Mountains through its southern neighbor (region 13).

The natural incline of these estates, north to south, causes the upper surfacing waters to this region and then leads them to the south east parts of Tehran city .

Generally, by the division of municipality, this region leads to Resalat highway from north and north east (region 4), to Damavand Street from south (region 13) and to South Sabalan & Ostad Hassan Banna Streets from west (region 7).

The region includes three areas and 20 sections and 13 sections of local consulting offices.

**Properties: Population and Green space**

Population :378685

Male: 190068

Female: 188617

Families :116601

Population Density: 28263 Per/Km<sup>2</sup>

Families Density: 8702 families in Km<sup>2</sup>

Education level of 8 to the region is approximately 92%.

Percent of people employed in various economic sectors:

Agriculture: 13 / 3%
