Professor and Director
The Certifying Center for International Safe Community
The Center for Community Safety Promotion
Ajou University School of Medicine,
Suwon, Korea

November 30, 2011

Dear Professor Cho:

Hello, I am Dae-su Kim, the Mayor of SamCheok City.

First of all, I would like to take this opportunity to express my sincerest appreciation and respect to you and the Center for Community Safety Promotion for your continued effort and dedication in the promotion of a safer and more prosperous life of our local citizens.

Since 2010, the local government of SamCheok city had organized a working team for the Safe City Project, based on the study "the Community Diagnosis for Safe Community, SamCheok". We are planning to set up the Web-based Injury Surveillance System and develop the "Long-term Strategy for Safe Community SamCheok".

SamCheok City, nominated as one of the five leading industrial cities in Korea during the 1970s, has established a new development plan of "Becoming the Hub of 21st Century Complex Energy Industry in Northeast Asia," thus dedicating all our resources and energy in the construction of an "energy and safe city, tourism and life city, education and welfare city as well as environmentally-friendly regenerating city."

Therefore, in order to reinforce the level of safety awareness of our citizens, I would like to take this opportunity to express our determination and passion for **safety** promotion. Finally, I would like to ask for your continuous interest and advice.

Thank you very much.

I wish all the best of you and your Center.

Sincerely yours
