The programme covers the following safety promotion activities:

For the age group :

Children 0-14 years, Youth 15-24 years, Adults 25-64 years, and Elderly 65+ years.

Environments:

Home, Traffic ,Occupational, School, Sports, Leisure, Natural Disaster, and Other.

Following by safe community programs which covering all age groups and environments :

○ **Road Safety Management**

- Age groups : All age groups

- Activities :

✓ *Helmet Campaign*

Provided helmets to children in day care centers, school and community, and making a record.

✓ *Road Injury Prevention during New Year and Songkran Festivals*

▪ Recorded the number of drivers with their risk behavior.

▪ Provided helmets to anyone who did not have.

▪ Sold helmets at low price instead of the penalty on fines.

▪ Knowledge transfer through community radio broadcast and posted in newspapers.

▪ Had a rescue center to assist and first responding to injured persons.

✓ *Road Injury Simulation Exercise*

Wang Sai Phun had coordinated with Disaster Prevention and Mitigation Regional Center 8 Kampangpetch together with Disaster Prevention and Mitigation Pichit Province Office had created an effective emergency response policy towards road injury.

✓ *Public Participatory on Highway Por Jor 2040 Wang Sai Phun*

To have favorable solutions, short and long term practical plans includes fixing risky areas.

✓ *Save Energy Campaign*

Community leaders and children had expressed the use of bicycles and needs of bicycles tracks in community to the Governor of Pichit Province.

✓ *Safe Driving Program in Wang Sai Phun by having motorcycle license 1st arrangement for motorcycle license*

Pichit Provincial Land Transport Office together with Thai Motorcycle Association had coordinated with Wang Sai Phun to launch 2 campaigns – ‘safe driving knowledge prior to having license’ and ‘motorcycling with light and helmet’

○ **Improvement of Emergency Response, Disaster Prevention and First Aid Capacity**

- Age groups : All age groups
- Activities :

✓ *Disaster Prevention and Mitigation*

Disaster Prevention and Mitigation Regional Center 9 Pitsanulok together with Disaster Prevention and Mitigation Pichit Province Office launched the ‘Community Based Disaster Risk Management’. The results helped in source mobilization, integrated into City Disaster Risk Reduction Plan and enhancing partnerships.

✓ *Pichit Scouts Training for the King 80th Birthday Anniversary*

Wang Sai Phun together with 6 networking groups launched a Pichit Scouts Training for 125 volunteer scouts, and the results found that those were able to give community necessities of life in emergency.

✓ *Workshop to Increase First Responder’s Capacity to Assist Injured Persons and Victims of Natural Disaster*

Wang Sai Phun Health Network launched a workshop for the rescue volunteers, public health volunteers, police, and 100 staffs of hospitals to increase the first responder's capacity.

✓ *Basic First Aid and First Response*

Conducted by staff of Wang Sai Phun Hospital.

✓ *Powerful Community for Risk Prevention*

Wang Sai Phun together with Disaster Prevention and Mitigation Office analysed the top risk situations includes flood, drought, storm, fire, wildfire, drowning and crime. And made a responsive plan includes preparation, action, disaster relief, rescue devices and relocation vehicles. Apart from these, the 'Preparedness Center for Disaster Prevention' was founded.

✓ *Disaster Prevention & Preparedness Center in Wang Sai Phun District*

Wang Sai Phun was selected by Ministry of Interior to establish 'Community Disaster Prevention & Preparedness Center'. It would be a demonstration and learning center as well as communication network and safety tools

○ **Work Safety and Improvement**

- Age groups : All age groups
- Activities :

✓ *Volunteer for Occupational Health and Community Service and " Work Improvement in Neighbourhood Development "*

International Labour Office and Occupational Safety and Health Division, Mahidol University had modified WIND model focused on participatory basis and more emphasized on child participation. It was found that the improvement plans and execution were not complicated, easy to follow and low cost. Apart from that, all young volunteer would be promoted and supported for their improving competency.

○ **Environment Pollution Prevention**

- Age groups : All age groups
- Activities :

✓ *Chemical Residue Checkup for People and Farmers in Wang Sai Phun*

The campaign started with brainstorming, communication, and target group selection from 13 villages. The blood tested found that the level of chemical residue could be separated into 4 levels; normal level at 11 persons, safe level at 79 persons, risky level at 93 persons and exposure level at 117 persons. From the test, the Administrative Authority of Wang Sai Phun District motivated and created people awareness to reduce chemical in farming. Finally, the number of level 3 and 4 reduced.

○ **Consumer Protection and Safe Products**

- Age groups : All age groups
- Activities :

✓ *Safe Products corresponding Thai Industrial Standard*

Thai Industrial Standard Institute provided community leaders information about safe standards and relevant regulations and purchasing method. Moreover, Wang Sai Phun together with CSIP have random selected toys from day care centers, schools, shops and stores to have a test on lead and risks.

○ **Social Risk Prevention**

- Age groups : All age groups
