Takapuna 0740
North Shore, New Zealand

Dear Dr Coggan

I am writing to you, in your capacity as Director of an International Safe Communities Certifying Centre, to advise our intent to lodge an application for the accreditation of Nelsons Ridge as a member of the International Safe Communities Network.

Nelsons Ridge is a community within the Local Government Area of Holroyd City Council and collaborative partnerships have been established between Holroyd City Council, Pemulwuy Community Group and many other community stakeholders to address the required criteria of the Safe Community Indicators.

International Safe Communities designation is recognised globally as a mark of a community's commitment to best practice in promotion and delivery of sustainable community safety and injury prevention outcomes.

We share an ethical commitment to safety; work in partnership and collaboration with community stakeholders; and have a shared passion for creating safe and sustainable places for people to live, work and play.

We believe that applying for International Safe Communities accreditation is an important step in consolidating the critical community partnerships and collaborations that assist to deliver essential injury prevention and community safety initiatives within Nelsons Ridge.

We would be very pleased if you would agree to undertake the accreditation of our communities and would also value your guidance and support throughout the process.

The preparation of our application is being coordinated by Community Safety Consultant, Ms Gordana Blazevic, and she will be your primary point of contact throughout this process. Gordana can be contacted on 0412543 813 or gordana@blazeconsulting.com.au

We look forward to receiving your confirmation of our request and to working with you on this important and exciting initiative.

Regards

John Kropman
President
Pemulwuy Community Group
