

Jianwai Safe Community Annual Report 2010

Demographics: The community accommodates 41,623 permanent residents from 16,752 households, 15,737 transient residents and 3,903 foreign nationals. Over 1 million people come in and out of the community per day. The population is featured by a high aging ratio, which is demonstrated by the fact that over 18% of the registered population are 60-plus years old. The community is home to more than 6,800 enterprises and over 80 multinationals listed in World Top 500. Generally, it is a business-residence community. Jianwai Community is responsible for guiding the administration of its 8 subordinate neighborhood boards, whose staff are elected by the residents and whose duty is to organize their residents to carry out activities. These 8 neighborhood boards are divided in accordance with geological locations, and are respectively administer South Langjiayuan Neighborhood, North Langdong Neighborhood, North Lang Neighborhood, Guanghuali Neighborhood, Xiushui Neighborhood, Yong'anli East Neighborhood, and Jianguoli Neighborhood, each covering 0.4-0.8 square km. Each board administers 3,000-10,000 residents. They are autonomous organizations of residents, each having 12-18 staff.

Name of your ISC: Jianwai Community, Chaoyang District of Beijing

Country : P. R. China

Submission date of this annual report: January 15, 2011

Person completing this annual report: Ma Zidong

Title: Staff Member, Comprehensive Administration Office of the Community

Email: tcmzdstong3@tom.com

Criteria 1 – Partnerships

1: Over the past 12 months have there been any significant changes to your ISC community coalition/network/group? Yes

Quitted members:

Wang Qin (Deputy Director, Jianwai Community)

Zhao Ping (Deputy Division Consultant, Jianwai Community)

Yang Zhilong(Chief of Civil Affairs Section, Jianwai Community)

New members:

Yang Xiaosheng (Director of Working Committee Office, Jianwai Community)

Liu Li (Chief of Civil Affairs Section, Jianwai Community)

Qiao Chi (Director of Administration Affairs Office, Jianwai Community)

2: Please provide details of your current coalition membership list. Include name, email address and position/organisation for each coalition member.

See Appendix I

3a: How often has your community coalition met during the past 12 months? Attach any relevant meeting agenda, minutes, annual report and any other relevant documents that demonstrate the operation of your inter-sectoral leadership group over the past year.

Meetings are convened quarterly. See the details in Appendix II.

3b: Over the past 12 months have there been any changes to the way your ISC is funded? No

4: Over the past 12 months, have there been any changes to your working groups/priority areas? Yes

With the theme of 2010 Work Safety Foundation Laying in Communities as a core, combining the subject of National Civilized City Building, the work teams, according to their characteristics, transferred their direction and focused on work safety normalization popularization. They built the team, forming regulations, with emphasis on management, and checked if the work has been completed, thus playing an important role in safeguarding public security and social stability. By extensively mobilizing social powers and integrating varied resources, further developing safety risk control and prevention on the basis of the mass, fire, electricity and carbon monoxide toxicosis control, we realized the goal set at the beginning of 2010 namely good public security order and no mass casualties event with weighty responsibility.

5: Please list at least three success stories from your program over the past 12 months? Provide details (e.g. what was the nature of the

success, did it advance partnerships/relationships, ability to attract funds and what outcomes were achieved):

Case 1 : Work on establishment of Comprehensive Administration and Stability

Maintaining Center: Thoroughly carried out instructions on enhancing Safe Beijing work and foundation laying of comprehensive administration on social security in communities. In the light of Suggestions on Building Comprehensive Administration and Stability Maintaining Center as A Pilot Program, Party Work Committee and General Office of Jianwai Community, developed Jianwai Comprehensive Administration and Stability Maintaining Center, considering 8 risk resources, objective of developing Full-scale Social Service Administration System, with One Network, Two Databases and Three Mechanisms (one information network, one basic information database, one emergency response and decision making support database, one information analysis, judgement and precaution mechanism, one scientific decision-making mechanism, one supervision and assessment mechanism). With a view to the condition of Jianwai, in principle of comprehensive planning as a whole, having definite object, rational management and concerted action, the center formed specified operation model, that is, orientation at first, with four work units, five mechanisms, six teams and three guarantees.

Case 2: Work by schools: Since 5 violence toward primary and middle school students, children in nursery school happened in Nanping, Fujian province and other places at the beginning of 2010, we carried out safety work at schools and surrounding places. Penetrating into neighborhoods, schools and nearby locations, we developed conflicts discovery and conciliation to fundamentally prevent crimes in the area. Add such, we strengthened survey and control of people who may threaten security, including those released from prison, those greatly discontented with society, mental patients and so on. Besides, we inspected staff at schools to find risk factors in time. The police station fulfilled everyday guard duty by schools. Policemen patrolled at rush hours, being ready for emergency. And the masses assisted the police force, at fixed posts and positions, with specific responsibilities, to ensure successful risk prevention and control. With City Comprehensive Administration Command Center, we intensified risk prevention by technology, the monitors installed in important positions and watched by personnels. Primary schools, middle schools and nursery schools improved the rules and regulations on security, and increased the number of gatekeepers, strictly carried out visitors registration system to stop suspicious persons from entering campuses, had emergency response drill, enhanced training for security department staff, increased teachers and students' safety knowledge and improved their risk avoidance capability. The risk prevention technological infrastructure at schools have been strengthened and were connected with command system of police station to ensure their efficiency.

Case 3: Built fire control teams at five levels: Jianwai Community is located in the middle of CBD, a special geographic position, with characteristics of many tall business buildings and great fire prevention pressure. Thus Comprehensive Administration Office took the lead to further study organization system of the work and set up fire control system in five levels, namely Police Officer-Fireman-Fire Control Assistant(in neighborhood boards)-Fire Control Instructor(in buildings)-Fire Hazzard Reporter(in companies). These people undertake specific responsibilities, reviewing fire control work at the same time. So the target, having organizations in community, teams in buildings and personnels in rooms, has been realized. Now there are 739 Fire Control Instructors and 3084 Fire Hazzard Reporters from 3226 corporations (including small resturants, hotels, etc.) in 336 buildings. 79 fire prevention organizations with 1128 members, and 32 volunteer fire control teams with 454 members have been established. The fire control knowledge was popularized by training the representatives of Fire Control Instructors and Fire Hazzard Reporters, who were required to spread the expertise especially skill of escaping from top buildings.

6: Over the past 12 months, please specify what high risk groups/environments has your ISC focused on and details of outcomes achieved?

6a Continue to deepen the program of home-based care security project
At the same time of carry on the table service for elderly person and day care room at JianWai Street, building the professional aging community teams, who should make the call to older alone person every day and provide them some voluntary services, including of daily care, psychological comfort, emergency response, health care, legal assistance and others, establish the linkage between government services and market services for the elderly person of volunteer service system.

6b theproject of caring people with disabilities

Paid 339,480 yuan to 71 severely disabled for the severely disabled unemployedbenefits.Paid 120,000 yuan to 72 Minimalneeds of persons with disabilities for difficulties. Help four families of disabledpersons in case of special difficulties to apply a temporary subsidy of 20,000yuan.^Paid to 33 27,000 yuan to the peoplewho is very poor.Paid the 10 persons 6960 yuan of issuanceof temporary hardship.Report to reward 7 Children andpersons with disabilities.Paid 22,000 yuan for Fucan Grants.^had a visiton84people who with disa bilities165times, and give them the goods and cash which in total 220,000 yuan. Paid180,000 yuan for 52 persons who haveMental illness, and help 4 personsto pay 25,000 yuan for the cost of be caring in hospital. complete the transformation of nine familiesof disabled accessibility.Grant 72 payment of disabled monthly complete the transformation of nine families of disabled accessibility.Grant 72 payment of disabled monthly. give out 17 little

Assistant and free distribution of assistive devices for free. Apply the social insurance for 72 persons with severe disabilities for free. Through our work in order to let the families of disabled persons and persons with disabilities truly feel the party and government by their carelessness, and the warmth of their community.

6c Health & Hygiene Safety Program for the Migrant Population

Migrant Population Administration Office and Family Planning Office have worked together to carry out health and hygiene promotions towards the employed migrant population in the community, organized the migrant workers on the construction sites to attend the courses on safety, handed out condoms to them to prevent HIV/AIDS, thus effectively reducing accidents caused by lack of health and hygiene knowledge.

6d Involvement by the Association of Red Cross Volunteers in the Community

The Community Association of Red Cross Volunteers has worked closely with the team for Safety Care Program for the Elderly, the team for Safety Care Program for the Disabled and the team for Health & Hygiene Safety Program for the Migrant Population. It motivates the volunteers to join the above programs, providing strong support and help for the projects. At the same time, the philosophy of harmony, care and safety has been disseminated.

7: Over the past 12 months, have you analyzed any injury/crime data?

Yes

The data on crimes comes from the police stations. And the data of injuries comes from both the statistics of work safety administrations and the medical agencies. By analyzing and comparing these data, we have quantified the results and flaws in our work, and summarized the successful experiences and the lessons, providing a basis and orientation for improvement of work.

8: Please list up to three examples of evaluations of local community safety programs that have been undertaken. Provide a brief summary of the outcomes and how evaluation findings have been incorporated into your ongoing ISC planning. Include copies of any relevant reports. Please indicate if no evaluations have been undertaken during the past 12 months.

Case 1 Family planning work of the transient population in the business buildings :

Assessing the healthy condition about the woman of reproductive age in the business buildings district by door-to-door interviews. Taking four measures to deepen this work. That is to say, putting platform, establishing family planning association of business buildings, setting up transient population posthouse, building family planning platform of communication among the transient population, forming troop, forming "the family planning work mentor's troop of Items on Private Economy", promoting the family planning management and

service of the transient population among business buildings, establishing mechanism, establishing and improving the family planning management system of the transient population, strengthening the comprehensive treatment on family planning, carrying out the responsibility of the relevant departments. Improving service, distributing <<family planning good services contact cards>> and 12000 pieces publicity materials, organizing the woman of reproductive to do medical examination, organizing a course of lectures on transient population family planning, installing automatic give out contraceptive machine and so on, improving management by service.

Case 2 Work Safety

Through random checks, the Community's Work Safety Team has implemented the "two-basic work". In accordance with the Work Safety Regulations formulated by Beijing Work Safety Supervision and Management Bureau, Work Safety Norms for Operations in Limited Space in Beijing, Work Safety Norms for Aerial Operations in Beijing, and Work Safety Norms for In-Building Manufacturers and Operators in Beijing, the Work Safety Team has reviewed if the problems found in the previous safety checks have been rectified, sent disguised staff to investigate if the employers have offered safety training on employees, or if they are equipped with adequate safety facilities. Facilitated by the appraisal efforts, most organizations have fulfilled safety training and rectifications, and no fatal accident took place in 2009.

Case 3 Regulated dog breeding

The Community has done well in dog-breeding management. The police station, Family Planning Office and Comprehensive Administration Office work together in dog-breeding registration, annual review, and vaccination in order to ensure safety and health of all residents. At year end, by reviewing the e-registration system and surveying the community residents, appraisal work is finalized. In all, 46 dogs were registered, 428 dogs reviewed, 2 dog owners fined and 10 owners given the warning. 37 dogs were confiscated, three illegal dog breeding cases were handled, 24 times of promotion and training courses were held, including a lecture on "prevention of rabies". Dog immunization work was conducted twice in the neighborhoods for year 2009, in which 465 dogs were vaccinated. Apart from those having diseases, all dogs have been vaccinated.

9: Over the past 12 months, have members of your ISC participated in:

a) International Network meetings Yes

b) National Network meetings Yes

c) Local Network meetings Yes

International Safe Communities Annual Meeting, Asian Regional Conference on Safe Communities, National Safe Communities Building Meeting, and

Chaoyang District Safe Communities Promotional Meeting.

Doing communication and direction for advancing the work of safety community innovation. The Community has received the visit by Wuhan, Hubei Province and Pudong New Area, Shanghai and other delegations, which came here to share experience in safe communities. Mr. Zhao Linxiang, Director-General of Jianwai Community, has also participated in appraisal of safe communities in other provinces and cities.

10: Over the past 12 months, what have been some of the biggest challenges to your ISC and what steps have you taken to address these?

A. At the beginning of the year, Nanping, Fujian and other areas occurred successively five deadliest cases on injuring primary and middle school students, kindergarten children with violence which caused certain panic in the society. Jianwai Community combined the selfish condition improved the security level on primary and middle school students, kindergarten children effectively, eliminated hidden dangers, ensure that regional without traumatize teenagers accidents through setting up Security Prevention-Control group, intensifying daily management and enhancing safety means.

B. November 2010, Jianwai Community according to the serious condition that several sequential conflagration occurred in the country, combined with local conditions convened district "three proofings" meeting, defined the work responsibilities of social unit, combined with "four capability" construction, arrayed "three proofings" work carefully, grasped work rule, mastered key areas of work, checked the time node. And at the same time, asked the district Comprehensive Administration Office carry out supervision seriously. Through a series of security measures to make sure the areas without major fire incidents

11: Over the past 12 months, what have been some of the biggest opportunities for your ISC and what steps have you taken to sustain them?

a: 2010 as regional security in the fundamental construction in grass roots, the maintenance of stability through establishing comprehensive management center an opportunity to integrate social resources, innovation system, improve the work system, and vigorously promote the safety, mobilize the enthusiasm of the masses, mobilize forces and region participation, enhance the overall security level of the region.

b: Cooperate with Beijing public security organs conduct the < Chaoyang District implementation local police station community police stagnation zone system police pilot work plan > activities, through the implementation of community police stagnation zone system, residential community police jurisdiction of the community, participate in community service all the day, resolving social contradictions, security organizations and other police activities, further closer the distance between community police

and community masses, further strict community safety system, further improve the sense of security and the satisfaction of the citizen directly.
