The programme covers the following safety promotion activities:

For the age group:  
Children 0-14 years:

1. School safety promotion to intend to improve school places where hidden safety problems exist and reduced the occurrence of injuries caused by environment factors to reduce children injuries. All the schools in the area were equipped with boundary alarm devices, and the entrances were installed real-time monitoring system.

2. Intensified its education on safety for teachers, so as to make them have the awareness and coaching ability for students' preliminary and fundamental safety education.

3. Started activities of education and games on safety for children, designed a theme activity—"Care Life & Health", which was carried out in forms of story telling, games, competitions, quiz shows, and other forms easy to children.

"Anboo Teaches Us Safety"—spokesperson for school safety. Schools initiated its plan of "Anboo—School Safety Spokesman" and carried out a series of activities under "Anboo Teaches Us Safety".

4. Emergency response plans and drills on a regular basis. Each school worked out various emergency response plans and conducted drills in line with its actual condition aims to improve students' emergency capability.

5. The program of Little Safety Supervisor Is Acting. This program aims to discover hidden safety problems through eyes of students and seek corresponding solutions. In the practice, students may learn to protect themselves and raise their awareness on safety.

6. Funny House—special program of psychological consulting for children. The community carried out education activity of psychological health for all the students, so as to enable them to foster good psychological quality and healthy characters.

The Psychological Measurement Room aims to determine students' psychological quality and prepared psychological documents for those with special needs or would-be psychological problems.

Youth 15-24 years:

Initiating Special Program of Construction of Normative Work & Hire Street aims to avoid enterprises employing child labor.

The AIDS Intervention Program for the young carried out activities with “Care Life and Keep Away from Aids—Scientific Aids Prevention” as the major concern.

The community built a peer education network with members from volunteers of China Youth Network, School of Mechanical Engineering of Beijing Union University, China Women’s University and Beijing Institute of Clothing Technology and encouraged them to carry out peer education for Olympic volunteers of whose university or other universities.

**Adults 25-64 years:**

Strengthening work on everyday safety supervision and safety improvement by special actions and carried out many special activities to improve safety for the workers.

**Carried out education and training courses on safety for employees**

The Evening School for Migrant Workers Program aims to use the evening school as a platform to provide training courses on safety for the migrant workers. While raising migrant workers’ safety awareness and skills, the program enriched their spare time life and brought caring to them.

## **Older Adults 65+ years:**
