

The Remembrance day of Road Traffic Victims launched in several cities of IR Iran

The third sunday of November is named as a remembrance day of the road traffic victims. The respected ceremony was held in several cities of the IR Iran to raise the road safety issues among stakeholders and community involvement for the traffic related injury and death prevention activities.

Multi sectoral approach to the road safety is the key factor. In this regard representative of different organization in the province such as traffic police department, road & transportation department, governor office, health service department and NGOs presented their relevant activities for the past one year at the remembrance day ceremony. The meeting launched at the city of Ahvaz, Amol, Kermanshah, Babool, Khorasan, Fars, Bushehr, &... The Chancellor of Ahvaz university of medical sciences , Chief traffic police for the Khozestan province, Voice chancellor for health and director for injury prevention, ministry of health delivered speech on road safety with focusing on younger road users, motorists and how helmet usage could be promoted among the young motor riders at the meeting on 22.11.2006

At the same meeting the 16th International conference on safecom held on 21-23 June 2007 presented and well advocated.
